Nguyễn Văn Tôn

Java Developer Intern

OBJECTIVE

I am a fourth-year Information Technology student seeking a Java Backend Internship where I can apply my knowledge of Java, Spring Boot, and databases in real-world projects, while continuing to improve my ability to write clean, maintainable code and bring value to the team.

EDUCATION

HCMC University of Inductry and Trade (HUIT)

Oct 2022 - Jan 2026

Major: Information Technology

GPA: 3.0/4

PROJECT

Online Car Dealership Website

Apr 2025 - Jul 2025

- Team size: 1
- Position: Full-stack
 - Developed a car dealership website enabling customers to view car details, place orders, and make online payments.
 - Designed RESTful APIs with Spring Boot
 - CRUD for employee/customer + admin
 - Implemented Spring Security for user authentication and authorization
 - Implemented online payment with Sandbox VNPay integration, including return URL, and IPN handling
- Tech stack: Spring Boot, Spring Data JPA, Spring Security, REST API, MySQL, Thymeleaf, Bootstrap
- GitHub: https://github.com/vantonnguyen/java porsche store v1

Ô Ăn Quan Game

Nov 2024 - Dec 2024

- Team size: 1
- Position: Full-stack
 - Developed Ô Ăn Quan game using WinForms with two modes: Player vs Player and Player vs Computer with 3 difficulty levels (Easy – Greedy algorithm, Medium – Minimax, Hard – Minimax with Alpha-Beta pruning).
- Tech stack: C#, WinForms, Algorithms
- GitHub: https://github.com/vantonnguyen/OAnQuan_C-sharp

SKILLS

Languages	Java (Core, OOP), C sharp (basic), PHP (basic)
Frontend	HTML5, CSS3, JavaScript, Bootstrap
Backend	Spring Boot, Spring Data JPA, Spring Security, Spring MVC, Swing, ASP.NET Core, WinForms
Database	MySQL, SQL Server
Tools	Git/Github, Postman, IntelliJ IDEA, NetBeans, VS Code, Visual Studio

INTERESTS

Learning database design and system architecture

Exploring AI in real-world applications
Reading technology blogs and practicing coding challenges
