EDUCATION

HO CHI MINH CITY UNIVERSITY OF INDUSTRY AND TRADE (HUIT)

- GPA: 3.07 / 4.0
- Major: Information Technology
- School year: 2022-2026

SKILLS

- Backend: Java Core, Spring Boot, Spring Data JPA, Spring Security, Spring MVC
- Frontend: HTML, CSS, JavaScript
- Database: MySQL, SQL Server
- Tools: GitHub, Postman, IntelliJ IDEA, Visual Studio Code

OBJECTIVE

I am a fourth-year Information Technology student seeking a **Java Backend Internship** where I can apply my knowledge of Java, Spring Boot, and databases in real-world projects, while continuing to improve my ability to write clean, maintainable code and bring value to the team.

PROJECT

Car Dealership Website 04/2025 - 08/2025

- Team size: 1 (Individual project)
- Position: Full-stack
- Developed a car dealership website enabling customers to view car details, place orders, and make online payments.

Backend

- Designed the backend using the MVC pattern
- Key features:
  - Browse and search car listings
  - View detailed car information
  - Add to cart and place orders
  - Online payment (Sandbox VNPay integration)
    - Redirect to the VNPay gateway for secure payment
    - Handled return URL and IPN to update payment status
  - Admin panel for managing cars and orders
- Implemented Spring Security for user authentication and authorization:
  - Login and access control
  - Configured role-based authorization with two roles:
    - USER: can browse cars, place orders, and make online payments
    - ADMIN: can manage car listings and orders via the admin panel
- Stored encrypted passwords using BCryptPasswordEncoder

Fontend

- Built a user interface with HTML, CSS, JavaScript, Bootstrap

Database

- Designed a relational database using MySQL

Technology

- Spring Boot, Spring Data JPA, Spring Security, MySQL, HTML, CSS, JavaScript
